

# **SURRENDER**

## **PS BENAIAH**

The moment we give our hearts to Christ we enter into a place of surrender. We surrender our sin, our will, and our hearts, and we give God full control. This is a place of freedom and delight, because we find our all in Him. Our challenge is to stay in this place of surrender. Life throws distractions at us as we walk in life. Circumstance, disappointments, fears, and distractions will all fight to cause us to take back control of our lives, and not live fully surrendered.

### **QUESTION:**

What are some examples of things that cause us to lose surrender?

To spiritually surrender means to let go of control and trust God completely. A place we must fight to live from. Here are some kingdom keys about surrender to apply:

Our security is found in surrender. Insecurity is just wrong security exposed. A secure heart is a happy heart. Great faith comes from great surrender. The more we walk in obedience, the more we see the supernatural and Heaven invade earth. The place of surrender is an expression of dependence on God. Dependence on God is an act of worship and worship is ultimate surrender. Dependence is surrender made manifest. It is what true humility looks like. Surrender and humility go hand in hand and cannot be separate.
